Begin with better.

Flavor is always best served fresh. That's how your customers want it, and that's how we help you serve it. No one else crafts holding and point-of-use equipment quite like we do. From industry-leading pumps and dispensers to warmers, stations and more — we work with you to bring out flavor in its freshest form.

ProPortion™ Handheld Dispenser

New

With 93% of restaurants short-staffed in their kitchen,[†] speed, efficiency and simplicity are more important than ever. That's why we created ProPortion™ Handheld Dispensers — so anyone can add consistent, accurate portions anywhere in the kitchen — streamlining service and increasing profits with every single squeeze.

Increased line speed saves time.

Speed, ease and efficiency add up to big-time savings with each ProPortion™ Dispenser.

**CALCULATE
YOUR SAVINGS**

Accurate portions reduce cost.

Precise portion control eliminates wasted product and delivers consistent flavor with every serving.

**CALCULATE
YOUR SAVINGS**

Precise Portions

6 color-coded tabs included, from ¼ - 1 oz, interchangeable as needed

Fast Filling

Top off or refill with direct pour or Cryovac FlexPrep® pouches

Versatile Valves

3 color-coded valve sizes dispense varying sauce types

Triple-tip shown

"For us, there are cost savings due to the portion control, but what's most important is the consistency ProPortion™ brings across our brand."

Aaron Sloma | Owner/Operator, Viand Hospitality

Making the world a better place, one drop at a time.

Access to pure, clean water is a privilege we don't take for granted. That's why we designed the ConserveWell® Utensil Holder to reduce water waste — the responsible replacement for continuous-flow dipper wells.

2 YEAR WARRANTY

All Server products are backed by a two-year warranty.

- Utensils are safely held above 135°F to protect against bacteria growth
- Programmable countdown timer helps ensure timely water changeouts (also available without timer)
- Drop-in models fit existing counter cutouts of most continuous-flow dipper wells
- Not recommended for utensils with gel-filled handles; see our application guide for suggestions

Pumps & Dispensers

"I love, love, love Server pumps.
I've been using Server for over 20
plus years and am super satisfied –
they simply don't break."

Erik Fox
Owner/Manager Out & Out –
Independent Fast Casual/Caterer

Getting fresher with age.

From the very beginning, we've tried to think differently when it comes to helping you serve better and we're still thinking that way today. Our latest innovation, the ProPortion™ Handheld Dispenser, allows you to take the flavor to your food while still serving precise portions with every single squeeze. It's just another way we are helping you bring out flavor in its freshest form.

2 YEAR WARRANTY

All Server products are backed by a two-year warranty.

[Get in touch](#)

Making sustainable dispensing indispensable.

Earth's resources aren't endless. That's why Server works hard to find new ways to reduce waste, control portions and make the most of each resource we're given. Our pumps aren't disposable — instead, we designed them to be durable, reliable and easy to clean, so you can keep pumping out more delicious without wasting a single drop.

Versatility

Perfect fit for back-of-house creations to front-of-house serving stations.

Portion Control

Not too much and not too little — just consistently full of flavor.

Waste Reduction

Control costs and squeeze every last drop out of your pump.

Make the right choice

Choosing the proper pump prevents operational issues such as over-serving, dripping product and overworking (unnecessary force needed to serve). Whether dispensing from original food containers or large, eco-friendly pouches, no one else crafts foodservice pumps quite like we do. Plus, we make it easy to find the perfect pump for your operation. Check out our Pump Selection Guide on page 12 or find additional tips on selecting the proper equipment by learning more with our exclusive [online resources](#).

Fraction Control

Server pumps dispense precise portions every time, providing you ultimate cost control. By just reducing your portion size by an eighth of an ounce, which will have no perceivable impact on patron experience, Portion Optimization™ savings can really add up.

In this example, a single stainless steel pump that lists for \$194 pays for itself in just a little over 5 months. Now multiply the annual savings times the number of ingredients you serve every day and you'll start to see a significant impact on your bottom line!

Start saving today by connecting with your local Server representative at server-products.com/How-to-Buy.

Portion Optimization™ Savings

Reduction Size 1/8 oz (.125 oz)	1 oz	7/8 oz
Cost Per Serving	\$0.10	\$0.0875
Servings Per Day	x 100	x 100
Operating Days Per Year	360	360
Annual Flavor Cost	\$3,600	\$3,150

Annual Savings \$450

"I can't recall a single complaint."

Tom Marranca has been an equipment and supply manager for Dairy Queen® for 38 years. In his time supplying Server Pumps and Warmers to locations throughout Canada, he says he receives so few issues with the products, he doesn't remember any complaints. Not only are our pumps built to last — we build long-term relationships to ensure customer satisfaction.

"Thank you for your continued attention to service and quality."

Pump Selection Guide

Your quick and easy path to finding the perfect pump

PUMP STYLE*	Stainless Steel See p 13	Eco Pumps™	Express™ Systems Model matrix p 18	Solution™ Pumps
KEY BENEFIT	Provides many years of serving high volumes of syrups, condiments or sauces in all temperature applications; with 1/8-oz adjustable increments	Eco Pumps™ are made of both stainless steel and plastic to cut costs, not quality, for serving of concentrates, ketchup and sauces from food containers	Delivers a high volume of condiments and dressings from a sealed pouch with fitment in fast-paced, institutional and quick-serve environments	Economical, lower-volume dispensing of thin syrups to thicker sauces at room temperature

WHAT DO YOU DISPENSE?	The food's consistency influences which style pump is most applicable (what size and shape discharge tube will handle it). The icons will help guide you to the proper pump, so you don't end up with dripping or overworking (unnecessary force needed to serve).			Express™ and Solution™ pumps include (3) discharge fittings with varying size openings to accommodate different product consistencies. It is important to choose the appropriate opening size for your food type to prevent dripping or overworking (unnecessary force needed to serve).

Stainless Perfection

Portion Optimization™ uses additional gauging collars to deliver consistent portion control in 1/8-oz increments up to 2 oz.

Interchangeable engraved and colored knobs help staff and patrons identify contents, coordinate with store themes or promote branded products. Specify color* and text at time of order. See p 91 and 92 for part numbers.

*Exact shade may vary from picture

Setting the standard for durability, stainless steel provides years of service; replacement parts ensure you never have to buy a complete pump again.

STAINLESS STEEL PUMPS

NSF listed and clean-in-place certified, these pumps reduce environmental impact as they never need to be discarded.

Food Container Pumps

Stainless Steel Pumps

- Dispense dressings and sauces directly from widemouthed gallon jars, #10 or #5 cans
- Manage food costs with consistent servings; 1 oz per stroke, adjustable in 1/8-oz increments
- NSF listed, clean-in-place certified or disassemble for cleaning

Pouched Food Dispensers

Why
pouched
condiments
& dressings?

HIGH YIELD Up to 98% evacuation means more portions served and less waste

PEACE OF MIND Closed-loop systems protect from cross-contamination risks

MORE RESPONSIBLE Pouches produce 97% less solid waste than rigid containers

CUT COSTS Serving from pouches rather than portion packets yields big savings

Flexible packaging is ideal for delivering high volumes of condiments in fast-paced, institutional and quick-serve environments. The bag fitment connects directly to the dispenser for an operator-friendly system that streamlines workflow so you can serve better, faster.

Pouched Food Dispensers

Stainless Steel Remote Dispensing Systems

- Racking design accepts 1 1/2- and 3-gallon pouches, keeping condiments on tap and out of sight
- Manually operated system simplifies high-volume dispensing; eliminates the hassles of a CO₂-driven dispenser
- 1-oz stroke; adjustable in 1/8-oz increments
- Specify color and text for pump knob when ordering; black is standard (see p 13 for details)
- NSF listed, clean-in-place certified or disassemble for cleaning at a dish station; no tools necessary

Quick Connect System makes reserve pouch transitions easy and mess-free.

Flush-mounted, stainless steel pump connects either pouch style, forming a sealed and sanitary system.

Specialty Dispensers

Thick Food Dispenser

- Serve thick, ambient foods like waffle and pancake batter, hand-crafted sauces, thick BBQ and salsas
- Gravity-fed design and fast-pour faucet allows high-viscosity foods to quickly flow into ramekins and soufflé cups; seals instantly to prevent dripping
- Holds six quarts in only 9" of horizontal countertop space
- Mess-free alignment guide on tray ensures accuracy and easy clean-up

Refills tall containers (above 4 3/4") by repositioning riser stand, so faucet clears counter edge

How to Buy

Visit our online resource

Consult your rep or find a dealer

Get in touch

Speed, ease and efficiency – all in one simple station.

From front to back of house, we work to streamline service and simplify day-to-day operations. Our serving stations are designed to keep condiments, syrups, toppings and more in a compact, convenient space. Organize, prioritize and customize all kinds of flavors without wasting time, effort or money.

Max Efficiency

Configure your stations how you want for ultimate speed and service.

Completely Customizable

Add a pump or two. How about a few jars? Whatever you want. It's yours to customize.

LTO-So Easy

Swapping out new and exciting flavors for limited time offers has never been so simple.

Fun assembly required.

We're here to help you put together the perfect station for your operation. Our Station Selection Guide is your step-by-step assistant with all kinds of options and configurations at your service. Simply select what works best and you're on your way to smoother serving.

Squeeze with Style

Squeeze bottle holders come in drop-in or countertop stations so you can add the finishing touch wherever you need.

Chilled or Ambient Stations

Veggies, cheese crumbles, garnishes and more — we'll keep it fresh and delicious all day long.

Garnish Servers

Sliced, chilled and ready to add colorful flavor to your food and beverages.

LTO, my.

Your customers want variety. You want simplicity. Now you get both.

Easily switch ingredients and offer today's trending flavors with exciting limited time offers and customizable drinks and dishes.

Simply assemble your station below and LTO away.

TOP WITH EASE

The **NEW** ProPortion™ Dispenser allows anyone to add consistent, accurate portions anywhere in your operation — streamlining service and increasing profits with every single squeeze. See p 29 for details.

Pouched Food Stations | Express™

Flexible packaging is ideal for delivering high volumes of condiments in fast-paced, institutional and quick-serve environments.

The bag fitment connects directly to the dispenser for an operator-friendly system that streamlines workflow so you can serve better, faster. Express™ stations serve 2-6 flavors in countertop and drop-in applications; **see p 18 for single dispensers.**

ADA
compliant | Less than 5 lbs of
pressure to dispense

OPERATOR-FRIENDLY

Durable plastic pumps have fewer parts for less fuss

Work exclusively with 1 1/2- or 3/4-gallon pouches with a 16-mm fitment

HIGH YIELD

Up to 98% product evacuation means more portions served and less waste

CUT COSTS

Serving from pouches rather than portion packets yields big savings

PEACE OF MIND

Closed-loop systems protect from cross-contamination risks

MORE RESPONSIBLE

Pouches produce 97% less solid waste than rigid containers

CLICK FOR TOPPINGS & DRESSINGS
AVAILABLE BY FOOD MANUFACTURERS

EXPRESS™ DISPENSING

Express™ Stations | 1 ½ Gallon

- Simplify condiment management – Express™ Systems dispense from 1 ½-gallon pouches with a 16-mm fitment, forming a sealed, sanitary system
- Durable, plastic pumps (07794) have fewer parts for easier use; dispense 1-oz portion, reduce in ¼-oz increments
- Up to 98% evacuation means more portions served and less waste

ADA
compliant

Cold Stations

1/6-Size Pan Stations

- Open design stainless steel servers allow for modular pan set-up, typically 1/6-size
- Easily monitor fill levels and showcase contents; clear hinged lids adjust for self-close or stay-open operation
- Keep food cold up to (4) hours between changeouts with (1) eutectic ice pack per 1/6-size pan (each sold separately)
- Single pan models are ideal for a Health Department-friendly, self-serve drink station with tongs stored off countertop

LIVEN UP WITH A LEMON SERVER

Fresh lemon slices are an easy way to improve drink quality and customer experience. Ready right out of the box, this little lemon server doesn't sweat. Its hinged cover protects from contaminants and the tongs hang neatly on a hook.

Comes complete with merchandising decal and all you need to serve:
(1) 90089 1/6-size pan, (1) 67859 tongs and (2) eutectic ice packs
(use one, freeze one.)

Mini Stations

Mini Stations with Spoons

- Built around exclusive 1/9-size jars, Mini Stations pack a lot in a small footprint, while displaying your fresh toppings safely under a clear hinged lid
- Insulated to hold cold food with ice packs, so those chocolate chips don't stick together in warm wait stations or outdoor breakfast bars
- Provide up to (4) hours of cold food holding with eutectic ice packs or ice
- Stations include an insulated stainless steel base, plus:
 - > (2, 3 or 4) 87203 1/9-size, black jars with 60-oz capacity
 - > (2, 3 or 4) 87253 clear hinged lids
 - > (2, 3 or 4) 85156 clear 1/2-oz serving spoons

Ice packs make changeouts quick & easy – order enough to swap out every 4 hours.

- > 2 jar base accepts (1) ice pack
- > 3 or 4 jar bases accept (2)

Mini Station Creation

1-2-3 Choose jars to fit base capacity

Plastic jars are made of high-impact polypropylene for years of use. Design features include a notch for the ladle handle to allow the lid to close completely, rear tab holes for stainless steel hinged lids to attach to the jar and side slots for securing clear hinged lids.

Mini Station Jars

jar color	item	description	capacity	overall dimensions (HxWxD)	list price

Fountain Jar Stations

Cold Stations with Ladles

- Insulated, stainless steel base keeps food cold up to (4) hours between changeouts with ice or ice packs; brushed finish reduces visibility of fingerprints
- Perfect for dry or solid ingredients and toppings in countertop or drop-in (DI) applications
- Quickly identify contents with colored, engraved lid knobs; black is standard (see p 13 for details)
- Stations include an insulated stainless steel base, plus:
 - > (2, 3 or 4) 82558 white fountain jars, 2 qt
 - > (2, 3 or 4) 82545 stainless steel hinged lids
 - > (2, 3 or 4) 82562 stainless steel ladles, 1 oz

Ice packs make changeouts quick & easy – order (1) 94141 ice pack (sold separately) per jar.

Stainless Steel Pump Stations

- Manage serving size of syrups and sauces with stainless steel portion-control pumps; 1 1/4-oz max, adjust in 1/8-oz increments
- Brushed stainless steel base helps reduce the visibility of fingerprints for a clean appearance; non-insulated
- Coordinate pump knob with store theme or contents within; specify color and text when ordering, black is standard (see p 15 for details)
- Stations include non-insulated, countertop base plus:
 - > (2, 3 or 4) 82557 white fountain jars, 3 1/2 qt
 - > (2, 3 or 4) 82120 SST pumps for thin products
 See our Pump Selection Guide before choosing; p 12

1-2-3-4 Choose jars to fit base capacity

HOW MANY JARS?

Refer to base capacity (left, p 50) for jar types. Slim jars allow you to serve more flavors without taking up additional counter space.

Fountain Jars

		THICKER tartar sauce • crafted sauces
APP		AMBIENT
		COLD
		HOT

Be sure to select the correct pump for your jar – pumps for shallow jars have a shorter cylinder than those for deep jars

CP models (b) have unformed tube ends, whereas FP models (c) have formed ends to hold back thin product drips

DI models have a 3 inch taller spout for additional serving clearance

Request knob color and engraving for easy product identification; black is standard. See p 13 for details.

Warmers

"I am very familiar with the brand. I've always used them for warm toppings. They are **versatile**, **easy to clean** and have a **long life**."

Chandon Clenard
Senior Director of Foodservice
Guckenheimer – 400 B&I
locations in 34 states

Hot and fresh, day and night.

Maintain precise temperature without lifting a finger, even as product is depleted. Server Warmers reduce waste, maintain quality and save money — all while heating and serving fresh, delicious food all day long.

2 YEAR WARRANTY

All Server products are backed by a two-year warranty.

Flavor Saver

Thermostats maintain temperature to ensure best flavor, first serving to last.

Rethermalizer

Safety Simply

NSF listed Rethermalizers ensure food is quickly & safely heated to 165° F.

Responsibly Served

Pouches serve up to 98% product evacuation from 97% less packaging.

Soup Warmers

Single Inset

- Stainless steel water-bath warmers with 5-, 7- or 11-quart inset
- NSF listed rethermalizers – quickly heat soups, proteins and other foods to safe serving temperature
- Eliminate wasted servings with precise temperature control and accurate, even heat
- Hinged lid returns condensation to the food to retain flavor and quality; side handles on larger lids open ergonomically – no reaching over steam

DELICIOUS PRECISION

Keep your soup at the perfect temperature all day long with precise, temperature-sensing thermostats and moisture-capturing hinged lids.

Twin & Triple Inset

- Stainless steel water-bath warmers with 5-quart insets and hinged lids
- NSF listed rethermalizers – quickly heat to safe serving temperature
- From creamy potato to chicken tortilla, individual thermostat controls keep each food at its proper temperature to eliminate wasted servings
- Maintain quality and keep counters clean; hinged lid returns condensation to the food

CONVERT FOR GOOD

Better for your budget and the environment — our simple pouch solutions keep up with today's packaging evolution. You can still switch to the pouch with your current FSP warmer; no need to buy new.

- Purchase a reusable stainless steel jar (94009) and pour pouched toppings in.
- If pouches have a fitment, purchase a pouch conversion kit (81184) to retrofit your pump — see how at Can2Pouch.com.

Twin Warmers

- Water-bath twin base with independent heat control serves toppings with pumps, ladles or one of each from #10 cans or stainless steel jars (accessory – 94009)
- Pumps provide consistent servings while managing food costs; 1 oz per stroke; adjust in 1/8-oz increments
- Adaptable base accepts (3) 16-oz high-density squeeze bottles (86809) and bottle inset (86811)

SWEET SAVINGS with Portion Optimization™

Reducing your serving size by as little as 1/8 oz can create significant savings without sacrificing flavor.

If you change portions from 1 oz to 7/8 oz:
That's like getting every eighth can for free!

Topping Warmers

No nut needed = one less part

To further simplify our stainless steel pumps, we have introduced a nutless discharge tube. Rather than using a nut to secure the lid, the newly formed discharge tube will ensure the lid stays in place, reducing the potential for lost parts during cleaning. This rolling change started with Food Server Pump 81320 used in FSP, Twin FSP and FSPW-SS topping warmers found on pages 58, 59 and 61.

Protect Your Product

Each water-bath topping warmer includes a plastic spacer. This spacer is critical to ensure the proper operation of your warmer when serving from a #10 can or 3-quart stainless steel jar (94009).

The spacer keeps the can/jar properly positioned, providing multiple benefits:

- Allows the water-bath warmer to evenly heat all sides of the food can/jar, rather than direct contact to the bottom only
- Prevents water overflow into the product, safeguarding quality and integrity
- Ensures more product is dispensed and served to customers; without a spacer, excess product is left in the can and remains unused

Single Merchandisers

- Ideal for theaters, stadiums, fairs and snack food operators – heated spout ensures safety when dispensing potentially hazardous foods
- Warm and serve Caramel, Hot Fudge and Cheese Sauce from a #10 can, 3-quart jar accessory or 48-ounce pouch with fitment
- Butter model pump is designed to prevent splashing and serves from a 3-quart stainless steel jar (included)
- Eliminate waste with precise temperature control and accurate, even heat
- Pump provides consistent servings while managing food costs; 1 oz per stroke, adjusts in 1/8-oz increments
- Reduce waste and speed clean-up – serve from a 48-ounce pouch with the new pouched dispensing model

INCLUDES MAGNETIC DECALS SHOWN. MAKE IT YOURS — DOWNLOAD TEMPLATES AT SERVER-PRODUCTS.COM FOR CUSTOM GRAPHICS

Topping Warmers

EZ-Topper® Pouched Product Merchandisers

- A sealed, contaminant-free system is created when the pump pierces a pouch with fitment
- Evacuation is excellent; more servings to your patrons means more profit
- Cleanliness – pump exterior and food vessel remain clean because topping is contained in the pouch
- No water level monitoring or risk of vapor damage to topping
- Pouches occupy less storage space and produce less waste than rigid packaging, helping the environment and reducing operator costs

SEE IT IN ACTION AT
EZ-TOPPER.COM

Back

EZ-Topper® units use specialized pouched toppings. Contact your food distributor for 48-oz topping pouches with a 16-mm center fitment; currently packaged by:

- Ghirardelli Chocolate Company
- The Hershey Company
- Lyons Magnus
- Masterson Company

48-oz Pouch
16-mm center fitment

Heated spout models keep product and discharge tube warm during slow periods.

Up to 98% product evacuation & 97% less packaging waste with pouches.

Pouch and fitment create sealed, sanitary system without the mess.

Dispense from one pouch while pre-heating a second in reserve (shown without reserve pouch); low-profile models eliminate space for pre-heating.

POUCH PERFECTION

 SERVER

Front cutaway

Single & Twin Merchandisers

- To keep topping at its peak flavor and texture, pouched product is heated with temperature-sensing thermostats, without the need for a water-bath
- Manage serving sizes of expensive ingredients with the portion-controlled, stainless steel pump; 1-oz max portion; adjusts in 1/8-oz increments

Food & Candy

Wall-Mount Dispensers

- Showcase your dry toppings and ingredients in a merchandising dispenser
- Designed to create a wall-mounted station of any number of ingredients; each dispenser needs just 5" of space
- Accurately dispense 1/4-oz to 2-oz portions from a 1- or 2-liter hopper; adjustable in 1/8-oz increments
- Not recommended for powders or sticky products, such as crushed candy bars

ADA
 compliant

No wrist twisting or tight grasping to dispense

Consumers

are stretching
their snack expectations
to include beverages.

Technomic, 2019

PERFECT PORTIONS

Clear-view merchandisers drive impulse sales.

Each dispenser needs just 5" of space.

Lift-to-serve lever is ADA Compliant
— no twisting necessary to dispense.

Quickly serve accurate portions from 1/4-oz to 2-oz max; adjustable in 1/8-oz increments.

Countertop models allow single-handed serving.

Countertop Dispensers

- No wall space? Single and double countertop models include:
 - 2-liter dry dispenser(s)
 - Stainless steel stand
 - Mounting bracket
 - Removable crumb tray

ADA
compliant

No wrist twisting or tight grasping to dispense

Dispense freely

Aid ingredients that tend to bridge in the dispenser with two handy accessories.

[Get in touch](#)

Parts & Service

Server Products equipment is sold through a large network of dealers, with list prices in this book as a reference point. For competitive net pricing, contact your local dealer/distributor or visit server-products.com/How-to-Buy to locate a dealer.

2 YEAR WARRANTY

All Server products are backed by a two-year warranty.

- Covers defects in materials and workmanship
- Excludes replacement of wear parts like o-rings, seals and springs
- Call 800.558.8722 for a Return Material Authorization Number
- Repairs are performed at our manufacturing facility in Richfield, Wisconsin
- You cover return freight costs to Server Products for evaluation
- If under warranty, your repaired unit is returned at no charge to you via ground
- 48-hour turnaround (from receipt) is common
- Please note: we operate on a five-day work week
- A complete warranty statement is available at server-products.com/Parts-Service

Returns for Credit

- Need to occur within 90 days of purchase
- Must be in new and unused condition
- For safety reasons, electrical components (heating elements, thermostats, etc.) are not returnable
- A standard restocking fee of 20% applies
- Call 800.558.8722 for a Return Material Authorization Number

Return Shipping Information

- Packaging is important – Server is not responsible for equipment damaged in shipping
- Items should not be returned without a Return Material Authorization Number (RMA #)
- To ensure timely processing, please put your RMA # on the box and ship to:

C/O Repair Department RMA # _____ | Server Products, Inc. | 3601 Pleasant Hill Road | Richfield, WI 53076

Equipment & Parts Purchasing

- Please choose carefully; for safety reasons, electrical components are not returnable
- Purchase through your dealer
- Prices are FOB Richfield, WI 53076 – shipping charges not included
