Blending Equipment

2018 Domestic List Price Guide

Vitamix
COMMERCIAL

SMARTER Investment

You only want the best in your kitchen, behind your counter, and for your customers. You won't accept anything less—not from yourself, and not from the equipment you count on, every day, to perform. That's why chefs and foodservice professionals trust Vitamix. They know it's not just a blender; it's an essential part of their success.

COMMERCIAL Products

Food or beverage, front of house or back, there's a Vitamix machine to suit your menu and your batch sizes. And now, finding the right machine has never been easier. We've divided our machines into categories according to application, so you can quickly identify which product might be right for your business.

COVERED BEVERAGE BLENDERS

Reduce blending noise for superior customer experience

Up to 34 recipe programs to automate blending

Advance containers offer maximum efficiency and dripless spouts

To view machines, refer to the Covered Beverage Blenders section

UNCOVERED BEVERAGE BLENDERS

Variety of control options and container sizes to choose from

Up to 6 optimized programs with automatic shut-off

Recommended for a wide range of blends, from smoothies to frozen drinks to açai bowls

To view machines, refer to the Uncovered Beverage Blenders section

FOOD PREP BLENDERS

Powerful efficiency to shorten prep times in Back of House (BOH) applications

Variable Speed Control achieves precise textures in every dish

Tamper allows continuous blending and tackles dense ingredients

To view machines, refer to the Food Preparation Blenders section

FROZEN TREAT MIXERS

Incorporate mix-ins into frozen desserts

Standard or programmed models available

Variety of agitators to choose from

To view machines, refer to the Frozen Treat Mixers section

Explore what we can do together

Technique: **BLENDING**

The speed of the Vitamix blades fully incorporates ingredients, including ice and frozen fruits, for signature, hand-crafted blends. Depending on your machine's controls, use pre-programmed settings to achieve consistent results, or 93 variable speeds to adjust the mouthfeel of every drink.

Technique: **CHOPPING**

Using the Pulse or On/Off switch, you can deliver a few quick bursts of power to rough chop ingredients, creating chunky dips and sauces without knife work. Instead of a food processor with limited controls, a Vitamix blender gives you a full range of speeds to refine the size of every chop.

Technique: **HEATING**

With the Vitamix machine's ability to heat ingredients through friction, soups and sauces can typically be brought to 170°F in just 5 minutes of blending on High. Use that power to your advantage when creating delicate custards and sauces, instead of risking scorching them in a double boiler.

Technique: **HOLOGENIZING**

Frozen ingredients are quickly homogenized in the container's vortex, with no chunks left behind. Vitamix machines allow you to create a wide range of recipes that would otherwise be too time-consuming, since you can blend housemade desserts in a single process and serve immediately.

Technique: **GRINDING**

Grind and pulverize virtually any ingredient to create every menu item from scratch without added oil, sugar, or shelf stabilizers. Transform roasted nuts to perfectly smooth butter and freeze-dried berries to the lightest powders — a wide variety of textures that just aren't possible with another appliance.

Technique: **EMULSIFYING**

By pouring oil slowly through the lid plug opening, emulsifications are created in seconds. Even new prep cooks can master this technique to create simple vinaigrettes, hollandaise sauce, and more.

Technique:
CREAMING

Creating fluffy, creamy textures in your Vitamix container will save your pastry chef time and money. There's no need to sift ingredients—the blender's speed breaks up clumps and fully incorporates ingredients for perfect creamed recipes.

Technique:
PURÉEING

In a single process, the Vitamix blender delivers exceptional texture and flavor refinement that typically requires additional steps like straining through a chinois. Easily adjust speed to control mouthfeel and create everything from a textured dip to a silky smooth purée.

Technique:
INFUSING

Take handcrafted cocktails to the next level by creating your own flavored simple syrups, right in the blender. Just add mint, citrus zest, or spices to your simple syrup made in the blender and pulse a few times to marry the flavors.

Technique:
MUDDLING

Let your Vitamix blender do the prep work for you. Pulsing lets you quickly rough chop items like fresh herbs to release their essential oils and create a great muddled drink. Add the perfect finishing touch by grinding your own sugar or salt for distinctive glass rims.

Technique:
WHIPPING

Blend heavy cream with chosen flavorings (such as mint or chocolate) on high speed until soft peaks form. Or create an indulgent mousse as your main dessert course by whipping the cream and folding in flavorings that have been blended separately.

Technique:
WHOLE JUICING

For smoothie and juice bars, a fresh juice blend is packed with flavor. And Vitamix blends the whole ingredient — for more fiber and less waste. Simply blend fruit and vegetable ingredients with water to your desired consistency. These fresh juices are also a great addition to your bar and restaurant menus.

A close-up photograph of a meal. On the left, a white bowl contains a vibrant green soup, garnished with small green leaves and tiny brown seeds. To the right, a white plate holds a large, irregularly shaped piece of bread, possibly a focaccia or a flatbread, which is topped with a light-colored, crumbly cheese and some red pepper flakes. The entire dish is set against a dark, textured background.

Smart Product Design

- 1.5-gallon XL container allows you to blend up to 24 servings in a single blend, minimizing prep time and improving speed of service.
- With shatter-proof polycarbonate and a hardened stainless-steel blade, XL containers are built to last.
- The vented lid plug releases steam, allowing you to blend hot mixtures and add ingredients while processing.

FINESSE DELICATE Blends

Sometimes, the most powerful thing you can be is gentle.

Our Aerating Container is ideal for fine-tuning delicate blends like emulsions, culinary foams, whipped cream, and more. From oxidizing citrus juice to making large batches of foam, the disc blade delivers an easy way to create new textures in the kitchen.

Smart Product Design

- Disc blade design creates dense and pourable culinary foam, flavored whipped cream, mousse, infusions, and emulsions with minimal splashing.
- BPA-Free Eastman® Tritan® copolyester and double-sealed bearings provide strength and durability.
- Provides the flexibility to blend at a variety of speed settings.
- Compatible with The Quiet One®, Blending Station® Advance®, Vita-Prep®, and Vita-Prep® 3.

REQUIRED INFORMATION ON ORDERS:

Vitamix requires that all purchase orders accurately identify the following minimum information:

- Vitamix account number
- P.O. number
- Payment terms
- Bill to address: business name, street address, city, state, zip code, phone number, fax number or email address, and primary contact person
- Ship to address: business name, street address, city, state, zip code, phone number, fax number or email address and a contact person (**Note: orders can not be shipped to a P.O. Box**)
- Requested delivery date
- Preferred shipping method
- Vitamix item number
- Item number description
- Quantity per item number being ordered
- Item price

TERMS:

- This catalog contains U.S. 120V Vitamix products that are only applicable for sale in the U.S.
- The exporting of U.S. Vitamix products is strictly prohibited and voids all warranty.
- All prices are in U.S. dollars and are subject to change without notice.
- All orders are subject to acceptance by Vitamix.
- A minimum order of \$20.00 is required.
- Any single order in excess of \$2500 Net (\$4000 Net when ordering an XL) shipping to the same destination within the contiguous United States of America will receive free ground shipping via the carrier chosen by Vitamix.
- All orders that do not include specific shipping instructions will be shipped via ground freight by the carrier chosen by Vitamix.
- Shipping and handling charges will be applied to each order based on the standard rates charged by the selected carrier.
- A drop ship fee of \$15.00 per order applies when shipping machines and/or containers to a different destination than the billing address.

- Vitamix is not liable for any type of theft or fraud related to drop ship orders. Signature required is recommended on all drop ship orders. Additional fee applies.
- All air shipment charges are the responsibility of the requestor and will be included in the shipping and handling fees.
- EXW Cleveland, Ohio U.S.A. Net 30 days from date of invoice with approved credit. Allow 10 business days for credit application to process.
- 1.5% monthly (18% annually) service charge added on all accounts past due.
- \$20.00 fee charged for all returned checks.

DAMAGES AND SHORTAGES / RETURNS FREIGHT:

- Inspect your shipment immediately. The transportation company is responsible for the merchandise while it is in transit to you.
- If there is a shortage or damage to your shipment, action must be taken by you to notify the carrier upon arrival of shipment to assure approval of claim. It is the duty and responsibility of the delivering carrier to give you a written report of such shortage or damage following notification.
- Concealed damage: If the damage is concealed, notify the carrier within 48 hours, by phone and in writing, asking them to send their agent to complete an inspection report. Retain all cartons and merchandise for their inspection report and claim approval. It is critical that you file a written claim with the carrier within 48 hours of receipt of shipment for any shortage or concealed damage.

Enclose with your claim: Carrier's Inspection Report, paid freight bill and original or certified copy of invoice.

RETURNS:

- Before returning any product, please contact our customer service department at 1.800.4DRINK4. Vitamix is not responsible for items returned without authorization.
- Goods may not be returned without a return authorization (RA) number from Vitamix.
- All cartons returned must be marked with the return authorization number. In order for merchandise to be returned, it should be in the original carton and unopened.
- Absolutely no returns will be accepted after 120 days of ship date.
- Special merchandise built to a buyer's specification may not be returned.
- Returned goods must be shipped to Vitamix prepaid and will be credited at invoice less 20% restocking charge.
- The restocking charge will be reduced to 10% if a replacement unit is ordered at time of return.
